Verse 1:

You formed the earth
And painted the sky blue
You raised up the mountains
So I would look to You
You filled up the oceans
Rolled out the fields of green
And You made the beach with sand
To illustrate how much You think of me
More than all creation, and all created things

Chorus:

Great is Your love to me
Great is Your love to me
Great is Your love, great is Your love
Great is Your love to me
Great is Your love

Verse 2:

You came into this world
And took the form of man
You lived and walked among us
To fulfill Your perfect plan
Moved heaven and earth
That You could have my heart
Now I want to give You glory
For what You've done and how great You are
Above all creation, and yet You care for me

(chorus)

Bridge:

Lord, You have searched me and have known me
You understand my ways
There's not a thought unspoken that You didn't know
Yet You loved me anyway
So I'll praise You singing....(chorus)
